Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Thursday 20 May 2021

++ Valid for broadcast between 0600 and 1800

Headline:
A wet and windy few days.

Today:
A dry start to the day but rain soon arrives from the west, heavy and persistent at times, and continues through the day. Strong winds, particularly towards the coast. Colder than of late, especially in the wind. Maximum temperature 14 deg C (57 deg F).

Tonight:
Staying unsettled overnight with rain or showers, these heavy and persistent at times. Strong winds also continue. Milder than recent nights. Minimum temperature 8 deg C (46 deg F).

Friday:
Unsettled on Friday with frequent showers, heavy at times, and strong winds. Becoming calmer and drier into the night, with most places dry by the early hours. Maximum temperature 15 deg C (59 deg F).

Outlook for Saturday to Monday:
Calmer Saturday, with scattered showers and sunny spells. Then turning unsettled again as band of rain arrives Sunday giving frequent showers, heavy and persistent at times, and stronger winds.
